ARTS OFFICE

OFFALY COUNTY COUNCIL

The Call

Offaly County Council Arts Office invites professional artists, individuals or groups, to work with youth organisations to submit a proposal for the delivery of a Youth Arts Project for the cohort of 13- to 25-year-olds within Offaly. The commission is open to submissions from all art disciplines including visual arts, film, animation, digital arts, performing arts, literature or sound art. The commission can concentrate on one art form or a range of art forms but **must include the participation of/engagement with a professional artist**. Young people's active participation and the co-creation of work should be central to the youth arts project.

The Background

Youth Arts Provision is embedded into the framework and strategies of the Arts Office Offaly County Council. Throughout the years the Council has delivered numerous programmes which engaged young people. There have been times of increased and decreased attendance and interest. Further information is available in the Arts Office Youth Arts Report [*The Makings Fostering Creativity Youth Creativity can be download by clicking on this link*](#)

Leading on from this report, the Arts Office wish to commission a number of small youth project(s) that will enable engagement between professional artists and young people (13+) facilitated by youth organisations, youth leaders and schools.

The Schedule/Outcome

Youth arts is a process-based practice, focused on the experience of working together through the arts: making work, building skills, expressing feelings and ideas through art, sharing what is made with others, and connecting with ourselves and others through the process. The goal of the commissions is to build secure relationships with relevant partners for the development of Youth Arts in the county, with the voice of young people being a priority.

Process and engagement with the Young People in Offaly should be central to the project and the inspiration should stem from their needs and wants. Young people should be consulted about the project design and application so their needs, interests and decisions can influence and inspire the work.

-

If there is a specific outcome (i.e. piece of art or performance), consideration should be given to how that would be showcased. While there is not a specific requirement to showcase any artistic outcome (piece of art, performance etc.) if this project element is of interest, artists are encouraged to work with their participating group to find a way to share their work that is appropriate to the experience and background of the young people as well as the aim and scope of the project.

Artists should also think about who they are proposing to work with and, when building local partnerships for the youth arts project, consider the extent to which their project will be easily accessible for young people, have a wide reach and encourage the engagement of young people who may not already be participating in the arts.

The successful applicants will need to submit interim reports, documentation and a final assessment.

The Budget

A maximum budget of **€5,000.00 is available per project**, with a maximum of **three projects**. The maximum funding will only be allocated to projects deemed to be exceptional by the panel). The budget is a total cost and must include all travel, materials, VAT. Applicants will only be eligible to make one project application.

We are very flexible, open to timelines but the project must be completed within six months of selection (depending on the complexity of the project).

Applicants proposing to work with Young People within a school setting will need to pay particular attention to school terms, holidays etc., and should have made contact with the school/youth organization they are planning to work with, i.e. a support letter from the school/youth organization will be required.
