1. Introduction

The question has arisen as to whether the proposed works (as detailed) to an existing dwelling is or is not development and if so, is it exempted development.

2. Background

The existing detached, one story dwelling house is located in the countryside, approximately 1.5km from St. Mary's Catholic Church, Shinrone.

Photo 1: Subject Site.

3. Site History

Ref 0194 – Sean Hogan was granted permission for an extension to dwellinghouse and alteration to entrance at Tubbrid, Shinrone, subject to 9 conditions.

4. Legislative Context

In order to assess whether or not the proposed works constitute exempted development, regard must be had to the following items of legislation:

Statutory Provisions

Section 2 (1) Planning and Development Act 2000, as amended, states as follows:

“house” means a building or part of a building which is being or has been occupied as a dwelling or was provided for use as a dwelling but has not been occupied, and where appropriate, includes a building which was designed for use as 2 or more dwellings or a flat, an apartment or other dwelling within such a building;

“works” includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

Section 3 (1) Planning and Development Act 2000, as amended, defines development.

“development” means, except where the context otherwise requires, the carrying out of any works on, in, over or under land or the making of any material change in the use of any structures or other land.

Section 4 - Exempted Development

Section 4 (1) (a) – (l) sets out what is exempted development for the purposes of this Act including:

(h) development consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure and which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or neighbouring structures.

Section 4 (2) (a) - The Minister may by regulations provide for any class of development to be exempted development for the purposes of this Act where he or she is of the opinion that -

(i) by reason of the size, nature or limited effect on its surroundings, of development belonging to that class, the carrying out of such development would not offend against principles of proper planning and sustainable development.

Regulatory Provisions

Article 6 of the Planning and Development Regulations 2001 (as amended) states, *inter alia*, that:

“Subject to Article 9, development of a class specified in Column 1 of Part 1 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with the conditions and limitations specified in Column 2 of the said Part 1 opposite the mention of that class in the said Column 1”.

Schedule 2 – Exempted Development, Part I - Development Within the Curtilage of a House, Class 7 specifies:

The construction or erection of a porch outside any external door of a house.

This is considered to be exempted development if the following limitations are complied with:

- 1. Any such structure shall be situated not less than 2 metres from any road.*
- 2. The floor area of any such structure shall not exceed 2 square metres.*
- 3. The height of any such structure shall not exceed, in the case of a structure with a tiled or slated pitched roof, 4 metres or, in any other case, 3 metres.'*

5. Proposal by Applicants

The Applicants have advised they intend to demolish walls and chimney, fit RSJ's to carry ceilings, form opening and fit new patio door and reduce window size, slab kitchen ceilings with insulated slabs and plaster, form new hotpress, repair walls and floors after plumbing and electrical works, build new porch at front, form new steps at front, form ramp at back of house and level off at back of house and upgrade heating and plumbing.

6. Evaluation

Question: *Whether the proposed works (as listed) to the existing dwelling are development and if so, are they exempted development?*

In considering the proposed works against the definitions of 'development' and 'works' as provided in the Act, it is the view of the Planning Authority that the proposed works are deemed as development as it includes refurbishments and alterations to the existing dwelling.

Question: *Is this proposal considered as Exempted Development?*

With regard to the proposed works which are described in the submitted documents, the Planning Authority are satisfied that the proposed works would not result in a material alteration to the appearance of the dwelling and would not be inconsistent with the character of area.

While it is acknowledged that applicant intends to form new steps and construct a new porch at the front of the house, 3.229m above step level (1.8m²), it is the opinion of the planning authority that these works meet the criteria of exempt development under regulatory provisions.

An appropriate assessment screening has been carried out see attached.

7. Conclusion

It is recommended that the Applicant be advised that the proposed development **is development and is exempted development.**

Declaration on Development and Exempted Development

Section 5 of the Planning and Development Act 2000 (as amended)

WHEREAS a question has arisen as to whether the proposed internal and external works to demolish walls and chimney, fit RSJ's to carry ceilings, form opening and fit new patio door and reduce window size, slab kitchen ceilings with insulated slabs and plaster, form new hotpress, repair walls and floors after plumbing and electrical works, build new porch at front, form new steps at front, form ramp at back of house and level off at back of house and upgrade heating and plumbing to an existing dwelling is or is not development and if so, are they exempted development at Tubbrid, Shinrone, Co. Offaly R42 W027.

AS INDICATED on the particulars received by the Planning Authority on the 16th October 2023,

AND WHEREAS Mary Hogan requested a declaration on the said question from Offaly County Council;

AND WHEREAS Offaly County Council, in considering this declaration request, had regard particularly to:

- (a) Section 2, 3(1) and 4(1)(h), 4(2)(a)(i) of the Planning & Development Act 2000, as amended.

APPROPRIATE ASSESSMENT SCREENING REPORT FOR PLANNING APPLICATIONS

Screening is used to determine if an AA is necessary by examining:

- If the plan / project is directly connected with / necessary to the management of the European site.
- If the effects will be significant on a European site in view of its conservation objectives, either alone / in combination with other plans / projects.

(D) ASSESSMENT OF LIKELY SIGNIFICANT EFFECTS:	
<i>(The purpose of this is to identify if the effect(s) identified could be significant – if uncertain assume the effect(s) are significant).</i>	
If the answer is 'yes' to any of the questions below, then the effect is significant. <i>(Please justify your answer. 'Yes' / 'No' alone is insufficient)</i>	
Would there be...	
... any impact on an Annex 1 habitat? (Annex 1 habitats are listed in Appendix 1 of AA Guidance).	Not likely due to the location and type of development. The site is sufficient distance from the European site.
... a reduction in habitat area on a European site?	There will be no reduction in the habitat area. The site is sufficient distance from the European site.
... direct / indirect damage to the physical quality of the environment (e.g. water quality and supply, soil compaction) in the European site?	Not likely due to the location and type of development. The site is sufficient distance from the European site.
... serious / ongoing disturbance to species / habitats for which the European site is selected (e.g. because of increased noise, illumination and human activity)?	Not likely due to the location and type of development. The site is sufficient distance from the European site.
... direct / indirect damage to the size, characteristics or reproductive ability of populations on the European site?	None likely due to the location and type of development. The site is sufficient distance from the European site.
Would the project interfere with mitigation measures put in place for other plans / projects. [Look at <i>in-combination effects</i> with completed, approved but not completed, and proposed plans / projects. Look at projects / plans within and adjacent to European sites and identify them]. Simply stating that there are no cumulative impacts' is insufficient.	No other plans known of in the vicinity of the site. The site is sufficient distance from the European site.
(E) SCREENING CONCLUSION:	
Screening can result in:	
1.	AA is not required because the project is directly connected with / necessary to the nature conservation management of the site.
2.	No potential for significant effects / AA is not required.
3.	Significant effects are certain, likely or uncertain. (In this situation seek a Natura Impact Statement from the applicant, or reject the project. Reject if too potentially damaging / inappropriate.

Therefore, does the project fall into category 1, 2 or 3 above?	Category 2		
Justify why it falls into relevant category above:	There would be no likely significant impact on the European site from the proposed development due to the scale of the proposed development and the separation distance between the subject site and European Site.
