1. Introduction

The question has arisen whether the proposed works of the demolition of 2 no. existing extensions and replace with 1 no. extension and refurbishments of dwelling house including replacement windows, heating and insulation is or is not development and if so, are they exempted development.

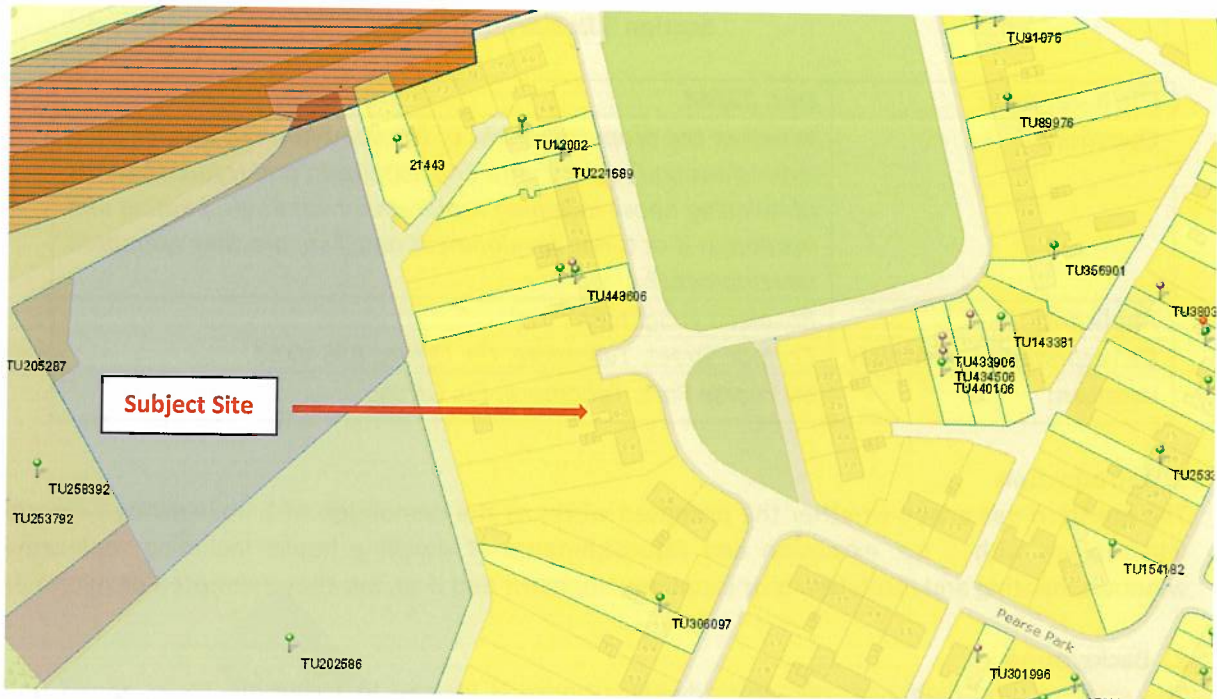

2. Background

The existing semi-detached, two story dwelling house is located in Tullamore town, zoned under existing residential land zoning of the Offaly County Development Plan 2021 – 2027.

Photo 1: Subject Site.

3. Site History

No relevant planning or enforcement history.

4. Legislative Context

In order to assess whether or not the proposed works constitute exempted development, regard must be had to the following items of legislation:

Statutory Provisions

Section 2 (1) Planning and Development Act 2000, as amended, states as follows:

“house” means a building or part of a building which is being or has been occupied as a dwelling or was provided for use as a dwelling but has not been occupied, and where appropriate, includes a building which was designed for use as 2 or more dwellings or a flat, an apartment or other dwelling within such a building;

“works” includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

Section 3 (1) Planning and Development Act 2000, as amended, defines development.

“development” means, except where the context otherwise requires, the carrying out of any works on, in, over or under land or the making of any material change in the use of any structures or other land.

Section 4 - Exempted Development

Section 4 (1) (a) – (l) sets out what is exempted development for the purposes of this Act including:

- (h) *development consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure and which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or neighbouring structures.*

Section 4 (2) (a) - The Minister may by regulations provide for any class of development to be exempted development for the purposes of this Act where he or she is of the opinion that -

- (i) *by reason of the size, nature or limited effect on its surroundings, of development belonging to that class, the carrying out of such development would not offend against principles of proper planning and sustainable development.*

Regulatory Provisions

Article 6 of the Planning and Development Regulations 2001 (as amended) states, *inter alia*, that:

“Subject to Article 9, development of a class specified in Column 1 of Part 1 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with the conditions and limitations specified in Column 2 of the said Part 1 opposite the mention of that class in the said Column 1”.

Schedule 2 – Exempted Development, Part I - Development Within the Curtilage of a House, Class 1 specifies:

The extension of a house, by the construction or erection of an extension (including a conservatory) to the rear of the house or by the conversion for use as part of the house of any garage, store, shed or other similar structure attached to the rear or to the side of the house.

There are a number of conditions and limitations attached to Class 1, which are listed and assessed below.

Schedule 2 – Exempted Development, Part I - Development Within the Curtilage of a House, Class 50(b):

CLASS 50 (b) The demolition of part of a habitable house in connection with the provision of an extension or porch in accordance with Class 1 or 7, respectively, of this Part of this Schedule or in accordance with a permission for an extension or porch under the Act.

Assessment

The declaration is being sought under the provisions of Class 1, in Part 1, of Schedule 2 of the Planning and Development Regulations 2001 (as amended). Class 1 limitations to be complied with are as follows:

1.(a) Where the house has not been extended previously, the floor area of any such extension shall not exceed 40 square metres.

The house has been extended previously. The floor area of the proposed extension is 18m². The total floor area of the proposed extension does not exceed 40m².

(b) Subject to paragraph (a), where the house is terraced or semi-detached, the floor area of any extension above ground level shall not exceed 12 square metres.

Single storey ground floor extension on a two-storey dwelling. No development at first floor level.

(c) Subject to paragraph (a), where the house is detached, the floor area of any extension above ground level shall not exceed 20 square metres.

Not applicable.

2. (a) Where the house has been extended previously, the floor area of any such extension, taken together with the floor area of any previous extension or extensions constructed or erected after 1 October 1964, including those for which planning permission has been obtained, shall not exceed 40 square metres.

The house has been extended previously. The floor area of the existing two extensions together is 19.4m². The floor area of the proposed extension is 18m². The total floor area of these extensions does not exceed 40m².

(b) Subject to paragraph (a), where the house is terraced or semi-detached and has been extended previously, the floor area of any extension above ground level taken together with the floor area of any previous extension or extensions above ground level constructed or erected after 1 October 1964, including those for which planning permission has been obtained, shall not exceed 12 square metres.

Single storey extension on a two-storey dwelling. Does not exceed 12m².

(c) Subject to paragraph (a), where the house is detached and has been extended previously, the floor area of any extension above ground level, taken together with the floor area of any previous extension or extensions above ground level constructed or erected after 1 October 1964, including those for which planning permission has been obtained, shall not exceed 20 square metres.

Not applicable.

3. Any above ground floor extension shall be a distance of not less than 2 metres from any party boundary.

Single storey extension on a two-storey dwelling, ground floor extension only.

4. (a) Where the rear wall of the house does not include a gable, the height of the walls of any such extension shall not exceed the height of the rear wall of the house.

The rear wall of the house does not include a gable and the proposed extension does not exceed the height of the house.

(b) Where the rear wall of the house includes a gable, the height of the walls of any such extension shall not exceed the height of the side walls of the house.

Part 4(b) does not apply as the rear wall of the house does not include a gable.

(c) The height of the highest part of the roof of any such extension shall not exceed, in the case of a flat roofed extension, the height of the eaves or parapet, as may be appropriate, or, in any other case, shall not exceed the height of the highest part of the roof of the dwelling.

The extension does not exceed the height of the highest part of the roof of the dwelling.

5. The construction or erection of any such extension to the rear of the house shall not reduce the area of private open space, reserved exclusively for the use of the occupants of the house, to the rear of the house to less than 25 square metres.

Proposed works comply.

6. (a) Any window proposed at ground level in any such extension shall not be less than 1 metre from the boundary it faces.

Any window proposed at ground level is greater than 1m from the boundary it faces.

(b) Any window proposed above ground level in any such extension shall not be less than 11 metres from the boundary it faces.

Not applicable.

(c) Where the house is detached and the floor area of the extension above ground level exceeds 12 square metres, any window proposed at above ground level shall not be less than 11 metres from the boundary it faces.

Not applicable.

7. The roof of any extension shall not be used as a balcony or roof garden.

Proposed works comply.

5. Proposal by Applicants

The Applicant has advised on the proposed works of the demolition of 2no. existing extensions and replace with 1no. extension and refurbishments of dwelling house including replacement windows, heating and insulation.

6. Evaluation

Question: Whether the proposed works (as listed) to the existing dwelling are development?

In considering the proposed works against the definitions of 'development' and 'works' as provided in the Act, it is the view of the Planning Authority that the proposed works are deemed as development as it includes refurbishments, replacements and alterations to the existing dwelling.

Question: Is this proposal considered as Exempted Development?

With regard to the proposed works which are described in the submitted documents, the Planning Authority are satisfied that the proposed works would not result in a material alteration to the appearance of the dwelling and would not be inconsistent with the character of area.

The Planning Authority are also satisfied that the proposed extension to the rear of the dwelling complies with the limitations set out in Class 1 of Part 1, Schedule 2 of the Planning and Development Regulations 2001 (as amended). It is the opinion of the planning authority that these works meet the criteria of exempt development under regulatory provisions.

An appropriate assessment screening has been carried out see attached.

7. Conclusion

It is recommended that the Applicant be advised that the proposed development is **development** and **is exempted development**.

Declaration on Development and Exempted Development

Section 5 of the Planning and Development Act 2000 (as amended)

APPROPRIATE ASSESSMENT SCREENING REPORT FOR PLANNING APPLICATIONS

Screening is used to determine if an AA is necessary by examining:

- If the plan / project is directly connected with / necessary to the management of the European site.
- If the effects will be significant on a European site in view of its conservation objectives, either alone / in combination with other plans / projects.

Advice received from NPWS over phone:	None Received		
Summary of advice received from NPWS in written form (ATTACH SAME):	None Received		
(D) ASSESSMENT OF LIKELY SIGNIFICANT EFFECTS:			
<i>(The purpose of this is to identify if the effect(s) identified could be significant – if uncertain assume the effect(s) are significant).</i>			
If the answer is 'yes' to any of the questions below, then the effect is significant. (Please justify your answer. 'Yes' / 'No' alone is insufficient)			
Would there be...			
... any impact on an Annex 1 habitat? (Annex 1 habitats are listed in Appendix 1 of AA Guidance).			Not likely due to the location and type of development. The site is sufficient distance from the European site.
... a reduction in habitat area on a European site?			There will be no reduction in the habitat area. The site is sufficient distance from the European site.
... direct / indirect damage to the physical quality of the environment (e.g. water quality and supply, soil compaction) in the European site?			Not likely due to the location and type of development. The site is sufficient distance from the European site.
... serious / ongoing disturbance to species / habitats for which the European site is selected (e.g. because of increased noise, illumination and human activity)?			Not likely due to the location and type of development. The site is sufficient distance from the European site.
... direct / indirect damage to the size, characteristics or reproductive ability of populations on the European site?			None likely due to the location and type of development. The site is sufficient distance from the European site.
Would the project interfere with mitigation measures put in place for other plans / projects. [Look at <i>in-combination effects</i> with completed, approved but not completed, and proposed plans / projects. Look at projects / plans within and adjacent to European sites and identify them]. Simply stating that there are no cumulative impacts' is insufficient.			No other plans known of in the vicinity of the site. The site is sufficient distance from the European site.
(E) SCREENING CONCLUSION:			
Screening can result in:			
1.	AA is not required because the project is directly connected with / necessary to the nature conservation management of the site.		
2.	No potential for significant effects / AA is not required.		
3.	Significant effects are certain, likely or uncertain. (In this situation seek a Natura Impact Statement from the applicant, or reject the project. Reject if too potentially damaging / inappropriate.		
Therefore, does the project fall into category 1, 2 or 3 above?	Category 2		
Justify why it falls into relevant category above:	There would be no likely significant impact on the European site from the proposed development due to the scale of the proposed development and the separation distance between the subject site and European Site.
