1. Introduction

The question has arisen as to whether the proposed works to an existing dwelling is, or is not development and, if so, is it or is it not exempted development.

2. Background

The existing dwelling is located within the village of Moneygall with direct access onto the L-8042-1 Local Primary Road. Under the current Moneygall Village Plan, as contained in Volume 2 of the Offaly County Development Plan 2021 – 2027, the subject site is zoned as Village Centre/Mixed Use.

Photo 2: Photo of rear exterior of 2 Barnagrotty Road.

3. Site History

There is no relevant site history.

4. Legislative Context

In order to assess whether or not the proposed works constitute exempted development, regard must be had to the following relevant items of legislation:

Statutory Provisions

Section 2 (1) Planning and Development Act 2000, as amended, states as follows:

“house” means a building or part of a building which is being or has been occupied as a dwelling or was provided for use as a dwelling but has not been occupied, and where appropriate, includes a building which was designed for use as 2 or more dwellings or a flat, an apartment or other dwelling within such a building;

“works” includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

Section 3 (1) Planning and Development Act 2000, as amended, defines development.

“development” means, except where the context otherwise requires, the carrying out of any works on, in, over or under land or the making of any material change in the use of any structures or other land.

Section 4 - Exempted Development

Section 4 (1) (a) – (l) sets out what is exempted development for the purposes of this Act including:

- (h) *development consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure and which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or neighbouring structures.*

5. Proposal by Applicants

The Applicant has indicated that the following works will be carried out within an existing dwelling:

- Replacement of external windows and doors
- Replacement of internal doors and skirting
- Refurbishment of bathroom
- Upgrade of plumbing
- Repairing and repainting all walls.

6. Evaluation

Question: *Whether the proposed works (as listed) to the existing dwelling are development and, if so, are they exempted development?*

In considering the proposed works against the definitions of 'development' and 'works' as provided in the Act, it is the view of the Planning Authority that the proposed works are deemed as development as it includes alterations and repairs to the existing dwelling.

Question: *Is this proposal considered as Exempted Development?*

With regard to the proposed works which are described in the submitted documents, the Planning Authority is satisfied that the proposed works would not result in a material alteration to the dwelling's appearance and the finished development would not be inconsistent with the character of the structure.

7. Conclusion

It is recommended that the Applicant be advised that the proposed development is **development and is exempted development.**

APPROPRIATE ASSESSMENT SCREENING
REPORT FOR PLANNING APPLICATIONS

Screening is used to determine if an AA is necessary by examining:

- If the plan / project is directly connected with / necessary to the management of the European site.
- If the effects will be significant on a European site in view of its conservation objectives, either alone / in combination with other plans / projects.

(D) ASSESSMENT OF LIKELY SIGNIFICANT EFFECTS:

*(The purpose of this is to identify if the effect(s) identified could be significant – if **uncertain** assume the effect(s) are significant).*

If the answer is 'yes' to any of the questions below, then the effect is significant.
(Please justify your answer. 'Yes' / 'No' alone is insufficient)

Would there be... ... any impact on an Annex 1 habitat? (Annex 1 habitats are listed in Appendix 1 of AA Guidance).	Not likely due to the location and type of development. The site is sufficient distance from the European site.
... a reduction in habitat area on a European site?	There will be no reduction in the habitat area. The site is sufficient distance from the European site.
... direct / indirect damage to the physical quality of the environment (e.g. water quality and supply, soil compaction) in the European site?	Not likely due to the location and type of development The site is sufficient distance from the European site.
... serious / ongoing disturbance to species / habitats for which the European site is selected (e.g. because of increased noise, illumination and human activity)?	Not likely due to the location and type of development The site is sufficient distance from the European site.
... direct / indirect damage to the size, characteristics or reproductive ability of populations on the European site?	None likely due to the location and type of development The site is sufficient distance from the European site
Would the project interfere with mitigation measures put in place for other plans / projects. [Look at <i>in-combination effects</i> with completed, approved but not completed, and proposed plans / projects. Look at projects / plans within and adjacent to European sites and identify them].	No other plans known of in the vicinity of the site. The site is sufficient distance from the European site.

Simply stating that there are no cumulative impacts' is insufficient.		
(E) SCREENING CONCLUSION:		
Screening can result in:		
1.	<i>AA is not required because the project is directly connected with / necessary to the nature conservation management of the site.</i>	
2.	<i>No potential for significant effects / AA is not required.</i>	
3.	<i>Significant effects are certain, likely or uncertain. (In this situation seek a Natura Impact Statement from the applicant, or reject the project. Reject if too potentially damaging / inappropriate.</i>	
Therefore, does the project fall into category 1, 2 or 3 above?		Category 2
Justify why it falls into relevant category above:	There would be no likely significant impact on the European sites from the proposed development due to the scale of the proposed development and the separation distance between the subject site and the three European Sites.
