

In reference to your proposal to include [REDACTED] In the County Offaly record of protected structures for 2021-2027 we would like to make some observations. The area is Birr and the Grid reference is *65-09*2021. I presume the curtilage refers to Folio OY17596 only. A major concern is [REDACTED]. Though reassured by Rachel Mc Kenna that modifications would be allowed to give me access all areas of our property such as lifts, ramps etc I would like it noted as this house is [REDACTED]. The yard to the North end of the property is surrounded by a 4 bay haybarn, a modern leantoo on the Northern wall and a renovated storage shed used by the previous owners to house woodworking machines. These buildings/ structures are surely not for inclusion as protected structures.
