

Hi Karen I wish to make a submission to the Proposed Draft County Development plan 2021 / 2027 regarding the Wind Energy policy, Offaly County Council have been very proactive over the last two County Development plans regarding the wind energy policy and i am concerned about the future plans for wind energy in the county. This Council must consider the Cumulative impact of wind energy development on this county and i am asking that this issue be strongly considered in the County Development Plan 2021 / 2017 Yours sincerely Cllr Eddie Fitzpatrick
