

I would like to see if I can get my folio in the correct zoning for small number of houses. I think I am currently zoned mixed/commercial. Not sure if this is the right place to start but if the county plan is under review I thought I would try. An architect told me about 18 months ago that there were no plans to provide housing in Walsh Island. Perhaps you can advise me further I did ring the planning office but I'm not at a stage for clinics etc. Thank you.
