25<sup>th</sup> July 2020

Subject  
**Clonbrin House – Protected Structures – Draft Offaly Country Council  
Development plan 2021-2027**

To whom it concerns

I refer to your letter dated 21<sup>st</sup> July 2020 to [REDACTED] in  
connection with the above matter.

I wish to advise you that I absolutely reject your proposal to include my original home as a protected structure. I am of the view that this building does not have any significant architectural, historical, archaeological, artistic, cultural, scientific, technical, and social significance.

In addition to this the curtilage of this house (outbuildings) is currently been used by me as a working dairy farm. The addition of the house and outbuildings to the protected structure list would cause untold disruption, restrictions and financial loss to the current operation of the dairy farm. I would therefore find the restrictions imposed on my farm unworkable and I would have to seek financial compensation as a consequence.

I therefore, wish to oppose Offaly County Council proposal to add my farm to the protected structures list.

Yours Sincerely.

[REDACTED]
